As the end of the school year approaches, we turn our attention to our summer programs. After years of working with children, we know that over the summer many students lose part of the educational gains they have made during the year. For years we have offered summer programs to try to help our students maintain all of their gains and increase their academic levels even further.

As in the past, we will continue to offer one-on-one programs in the homes of the students, as well as a series of 2 week Intensive Skills Camps. **Summer 2022 date are as follows:**

May 30 to Jun. 03
Jun. 06 to Jun. 10
Jun.13 to Jun 17
Jun. 20 to Jun. 24
Jun. 27 to Jul. 01
Jul. 04 to Jul. 08
Jul. 11 to Jul. 15
Jul.18 to Jul. 22
Jul. 25 to Jul. 29
Aug. 01 to Aug. 05
Aug. 08 to Aug. 12
Aug. 15 to Aug 19
Aug. 22 to Aug. 26
Aug. 29 to Sep. 02

Our camp programs always provide a positive experience in developing the educational skills of each camper, while encouraging a sense of enthusiasm and enhancing self-image. Students will improve their reading, spelling, and written language through our Orton-Gillingham approach. They will see gains in math through our multisensory techniques, and will develop life-long organizational and study strategies.

I am also including information on our tutoring at your school or at the student's home. We also do teacher training at your school. I have enclosed information on all of our programs.

I look forward to hearing from you,

Deborah Levy, Ed.D

Director
Levy Learning Center
