

Dyslexia Training Course

What is Dyslexia?

According to the International Dyslexia Association (IDA), dyslexia “is a language-based learning disability. Dyslexia refers to a cluster of symptoms, which result in people having difficulties with specific language skills, particularly reading. Students with dyslexia usually experience difficulties with other language skills such as spelling, writing, and pronouncing words. It is referred to as a learning disability because dyslexia can make it very difficult for a student to succeed academically in the typical instructional environments.”
